Regulations for language teaching in the European Schools:

1. In the European Schools up to four languages may normally be studied.
2. For the Nursery section the regulations are as follows:

Language I is taught from the age of three years and is the language of the section in which the pupil is registered.

3. For the Primary and Secondary sections the regulations are as follows:

Language I is taught from primary year 1 and is the language of the section in which the pupil is registered.

Language II is taught from primary year 1: it may only be DE (German), EN (English) or FR (French) and must be different from Language I.

A change in Language II, for whatever reason, when a child is in the primary section is not desirable, as it would require the child to make too much effort to adapt. Thus, such a change is only accepted after a test proving that the pupil is capable of keeping up in another language.

A change in Language II at a given point in secondary education is only possible in special cases, presupposing:

- (a) a duly justified written request from the parents;
- (b) an admission test.

From secondary years 3 to 5, a pupil's Language II (DE, EN or FR) is his/her working language for history, geography and economics.

Language III is taught from secondary year 2: it may be any official language of the European Union (plus Irish) not being studied as Language I or Language II.

Language IV is taught as an option from secondary year 4.

NOTE: The Board of Governors has decided that **Irish pupils** who so wish may choose Irish as Language III or Language IV and that Irish pupils who prefer to choose another Language III or Language IV may continue to take Irish as an additional subject on top of the normal timetable. However, only one course will be organized for these two categories of pupils. This course will be the continuation of the Irish teaching given in the nursery section, in the primary section and in secondary year I.

The Pedagogical Committee of Scuola per l'Europa has decided that pupils who do not have the language section corresponding to their mother tongue (in Parma: German, Dutch Danish, Finnish, Greek, Portuguese, Spanish, Swedish, Czech, Estonian, Hungarian, Latvian, Lithuanian, Maltese, Polish, Slovakian, Slovenian) shall be on principle enrolled into the English or French language sections; the language of the chosen section will become their Language II (first foreign language). If a pupil should enter, upon justified request and in his/her interest, a language section other than the two mentioned above, he/she will have to choose English, French or German as his/her Language II (first foreign language). In the Nursery and Primary Schools the number of lessons will be of five weekly periods. In the Secondary School the number of lessons will be according to the number of pupils enrolled. The Administration will guarantee a minimum of 3 weekly periods.
